

Swansea Little League Instructional Division Rules

- Time Limit-----2 hours or 6 innings
- Each inning will have either 3 outs or 4 runs, which ever comes first
- Once the ball is touched by the outfielder the runner may advance only to the base they were running to and must stop at that base.
- Positions should be rotated, with the exception of first base. The first baseman should be a player who can catch the ball so we avoid injuries.
- Each batter will get 6 swings/ strikes except when a foul ball is hit in the last strike, then the batter will get another pitch.
- In case of bad weather the coaches should use judgment in determining if the game is played. If coaches do not agree the game will not be played.
- Continous rotating batting order.
- Final inning time start will be determined by league rule, (7:20 PM, After June 1st 7:45PM) let's use our best discretion and not get someone hurt trying to finish a game. If a game cant be finished and can be finalized by innings played per LL rule, previous innings score will count.
- Make up games on home team practice time and field, if weather is still inclement or field unplayable, next option is visitor's field time.
- **The on-deck position is not permitted**
